

# *An Assignment Template*

*Sam Student*

*September 17, 2015*

This is the abstract for the assignment. Here you state what the assignment is and provide any additional introduction or commentary that you care to.

Figure 1: This is a margin figure. Here is where you put the caption for your margin figure.

## COMMAND LINE STUFF

This is how you can represent things you are entering into the command line terminal. Note the use of the dollar sign like the terminal has.

```
$ git pull -u origin master
```

This is a margin note you can use to comment on what you are doing in the command line.

## REPRESENTING PYTHON CODE IN YOUR ASSIGNMENT

```
a=21
b="prime"

for x in range(2,a/2+1):
    if a%x==0:
        b="composite"
        break
print "the number is "+b
```

Here you can comment on your python code.

```
the number is composite
```

This indicates the output of your program.
